MarketMania Sweepstakes Rules (Summer Edition)

[1] Your game card contains 10 different combinations of 3 companies, each randomly generated and randomly assigned to one of the game's 10 weeks. [2] Each week, we calculate the "Value" of your card by adding up the % gain (or loss) by each of your 3 stocks. Prizes are awarded to the 33 game cards with the highest Value, and the 5 cards with the lowest Value, relative to all other cards in a given week. [3] At the end of the game Grand Prizes are awarded to the one card with the highest, and the one card with the lowest, total combined weekly Values over all 10 weeks. [4] If two or more game cards are tied with the same Value, then total stock price gained/lost is used as the primary tiebreaker. [5] If for any reason a company's stock price is not available during the course of the game, then a replacement company from our alternate company list will be assigned in its place. [6] Minimum odds of winning: 1 in 13.5 for the entire game; 1 in 131 in each week; 1 in 2480 for a grand prize. [7] No purchase necessary to play. Void where prohibited. [8] Sweepstakes ends after all weeks completed. [9] To enter the sweepstakes, the organization on the front of this card must activate the card number. To request a free game card, ask the organization in person (see contact info on front of card) for a "free game card request form", complete the form, and mail to the address shown on the request form along with a self-addressed stamped envelope postmarked by week 4. A game card will be assigned to you and mailed in the return envelope sent with your form. [10] See website for additional details and to view winning game cards.
